# 104

CREDIT HOURS  
72 LEVEL I  
32 LEVEL II

Completion of Level I and Level II of this program satisfies the educational requirements for Fellowship in the International Congress of Oral Implantologists (ICOI) the world's largest dental implant organization.

# Learn **Learn to predictably**

treat your patients using dental implants. You will be encouraged to bring cases for review. You will benefit from one on one treatment planning. Our instructors will guide you in your acquisition of the knowledge and confidence to treat your own cases from start to finish. You **will learn to use CT guided surgical techniques. You will participate in hands on model and pig jaw workshops. You will observe and assist in live surgeries.** Upon completion of this course you will understand why, when and how patients can benefit from dental implant treatment.

## This **Interdisciplinary** Program is suited for

"THIS INTERDISCIPLINARY PROGRAM IS DESIGNED FOR CLINICIANS WHO WISH TO INTEGRATE DENTAL IMPLANT INTO THEIR PRACTICES AND ENHANCE THEIR KNOWLEDGE, SKILLS AND CONFIDENCE LEVEL"

**THIS PROGRAM IS GEARED MORE FOR THE BEGINNER OR INTERMEDIATE RATHER THAN THE ADVANCED DENTAL IMPLANTOLOGY PRACTITIONER.**

**BEFORE**

**AFTER**

## Course Director

### **RICK FERGUSON D.M.D.**

Dr. Ferguson has been involved in teaching hands on and didactic courses in implant dentistry for the last 14 years. Dr. Ferguson has been instrumental in developing a proven method of training including mentorship which allows doctors to easily incorporate dental implants into their practices.

*"We have brought together a team of speakers who are the best in their respective fields and who are committed to helping you succeed in dental implantology."*

## Course Co-Director

### **ROBERT WALINCHUS D.M.D.**

Dr. Walinchus is a Hospital dentist who practices all forms of general dentistry with a strong emphasis on dental implants. His guidance and techniques have helped many dentists get started and advance rapidly in implant dentistry. Dr. Walinchus is an expert in CT Scanning/Computer Guided Surgery which is the cutting edge of implant dentistry today.

## Mandatory Live Surgery Attendance

Each participant is required to attend at least one Friday live surgery session at **PHILADELPHIA** 1 West Woodland Ave, Springfield, PA 19064

## Participants will learn to:

- Fully evaluate patients that may benefit from dental implant treatment
- Prepare patients for dental implant treatment by socket/bone grafting
- Use **CT** scans with virtual placement software for treatment planning
- Place Implants ( with and without **CT** guides)
- Restore Implants
- Complete Esthetic Cases
- Maintain Implants
- Handle Complications/Failures
- Talk to patients about treatment with Dental Implants
- Motivate and Train Team Members

## Participants will be expected to:

- Demonstrate competency on all hands on exercises
- Demonstrate competency on quizzes
- Bring cases for review
- Bring Laptop computers for **CT** guided software training
- Observe and assist live surgeries - (Dates to be announced at first session)

**Mandatory Live Surgery Attendance Each participant is required to attend and assist at least one live surgery**

(Optional) Bring Patients for live surgery - additional fees may apply
