**Irvine, California**  
Crowne Plaza Hotel

## Course Director

### Rick Ferguson DMD

Dr. Rick Ferguson lectures throughout the world on a variety of implant surgery and restorative topics. He is the director of Implant Educators which runs a seven month program teaching general dentists and specialists how to become implantologists. Dr. Ferguson is a Diplomate of the ICOI, an Associate Fellow of the AAID and a visiting lecturer at the University of Miami. Dr. Ferguson has taught implant dentistry and hands-on bone grafting courses which have been attended by thousands of dentists over the last 15 years. He is currently in private practice in Davie, Florida.

## Course Co-Director

### John DiPonziano CDT, DDS

Dr. John DiPonziano has been performing the surgical placement and prosthetic restoration of dental implants since the mid-eighties. He is a Certified Dental Technician, a Master of the Academy of General Dentistry, a Diplomate of the International Congress of Oral Implantologists, and a Fellow of the American College of Dentists. He served as President of the New Jersey Academy of General Dentistry in 2003, and Chaired the Academy of General Dentistry's Implantology Task Force, which formulated universal educational guidelines for implant training in 2009.

Dr. DiPonziano maintains a private practice where he performs surgical as well as restorative dental implant procedures and full mouth rehabilitation in San Leandro, California.

## Restored Implants

## Course Description

Learn to predictably treat your patients using dental implants. You will be encouraged to bring cases for review and you will benefit from one-on-one treatment planning. Our instructors will guide you in your acquisition of the knowledge and confidence to treat your own cases from start to finish. You will learn to use CT guided surgical techniques, participate in hands-on model workshops and observe and assist in live surgeries. Upon completion of this course you will understand why, when, and how patients can benefit from dental implant treatment.

Participants will be expected to demonstrate competency on all hands-on exercises and quizzes. Each participant will bring cases for treatment planning and review. Live surgeries will be observed or assisted at each session. Observation and assistance in live surgeries are required; dates will be announced at the first session. Attendees should also bring a laptop computer for CT guided software training.

## Course Schedule and Speakers

Intro to implants, socket grafting and diagnosis with hands-on workshops

Rick Ferguson DMD  
September 24-25, 2011

CT guided dental implant surgery / hands-on computer software training workshop
