Course Directors

Rick Ferguson DMD

Dr. Rick Ferguson lectures throughout the world on a variety of implant surgery and restorative topics. He is the director of Implant Educators which runs a seven month program teaching general dentists and specialists how to become implantologists. Dr. Ferguson is a Diplomate of the ICOI, an Associate Fellow of the AAID, clinical assistant professor at the University of Florida and a visiting lecturer at the University of Miami. Dr. Ferguson has taught implant dentistry and hands-on bone grafting courses which have been attended by thousands of dentists over the last 15 years. He is currently in private practice in Davie, Florida.

Arthur Acker DMD

Dr. Arthur Acker lectures throughout the U.S. on implant related topics. He is a Diplomate of the ICOI, a Master in the Academy of General Dentistry and an adjunct professor at The University of Florida. He is co-director of Implant Educators and currently has a private practice in Venice, Florida.

Katherine Ferguson DMD

Dr. Katherine Ferguson is a Diplomate of the ICOI and a Fellow of the Academy of General Dentistry. She is a visiting lecturer at the University of Miami. She is co-director of Implant Educators and is in private practice in Davie, Florida.

Restored Implants

For the treatment planning, placement and restoration of **Dental Implants**

Place dental implants on real patients

Bring your own patient or we can provide one for you!

Doctors must have a current U.S. Dental License

Course Description and Expectations

Learn to predictably treat your patients using dental implants. You will be encouraged to bring cases for review and you will benefit from one-on-one treatment planning. Our instructors will guide you in your acquisition of the knowledge and confidence to treat your own cases from start to finish. You will learn to use CT guided surgical techniques, participate in hands-on model workshops and observe and place implants in live surgeries. Upon completion of this course you will understand why, when, and how patients can benefit from dental implant treatment.

Participants will be expected to demonstrate competency on all hands-on exercises and quizzes. Each participant will bring cases for treatment planning and review. Live surgeries will be observed or assisted at each session. Observation and assistance in live surgeries are required; dates will be announced at the first session. Attendees should also bring a laptop computer for CT guided software training.

Course Schedule and Speakers
